

# Implementing Brownfield Reform

## Off-Site Liability Protection

- Clarifies regulatory liability for property owners who demonstrate that migrating contaminants do not exceed ministry standards

## Enhanced RSC Integrity

- Clearer environmental site assessment requirements used in RSCs
- More predictable, transparent process for submitting RSCs (administrative check of RSCs prior to filing)

## Strengthened Standards

- Updating contaminant standards to reflect advances in science

## Streamlined Risk Assessment

- New streamlined approach (“modified generic”) providing for faster acceptance of risk assessments.
