The current economic landscape lends even more significance to the redevelopment of under-utilized properties.

Get all the critical information you need to revitalize and green your community.

The main goal of the conference is to encourage the redevelopment of brownfields, which can have great benefits for communities, and the private and public sectors. Witness the 2010 games - the Athlete's Village at South East False Creek was formerly a brownfield.

You will hear from experts across Canada on:

- The increasing **business imperative** to add value through **incorporating sustainability** into new development models
- Innovative **financing strategies** that are turning plans into reality
- Engaging and partnering with **First Nations** on brownfield site projects
- Innovations in **new clean technologies** and green remediation methods, and the on-site implications
- Labour force capacity, **skills and training**, and related liability issues

For more information, to register, or to exhibit, go to [www.canadianbrownfields.ca](http://www.canadianbrownfields.ca). Special member and group rates are available. Inquiries can be sent to [brownfields@canurb.com](mailto:brownfields@canurb.com).

Don't miss your chance to join the growing diverse Brownfields community at the industry's premier national conference and trade show!

We hope to see you in Vancouver this fall!

The Canadian Urban Institute  
and  
The Canadian Brownfields Network
