

Steve Finn, Dipl Tech, BsF, MF, RPF

Steve is Program Head of the Brownfield Redevelopment Program at the British Columbia Institute of Technology (BCIT). Since joining BCIT in 1990, Steve has held positions as an Instructor dealing in the areas of Computer Applications, Forest Engineering, Forest Health and Fire Management. Eighteen months ago he was approached to take the lead on creating a series of courses in support of the BC Brownfield Renewal Strategy, and one cohort has completed the program to date. Steve is also the program head of another new initiative, the Sustainable Energy Management program.

Prior to joining BCIT, he had worked for many of the major licensees in the province primarily in the field of Forest Engineering. You can find him in the summer working as a fire warden, having fun patrolling the back roads of the Fraser Fire Zone as a fire warden for the Coastal Fire Center

Steve has a dual diploma from BCIT in Forestry, and Fish, Wildlife and Recreation. He has a bachelor's degree in Forest Operations and a Master's degree in Forest Planning, both from the University of British Columbia. Steve is a registered professional forester (RPF) with the Association of BC Professional Foresters (ABC PF).
